DAILY WORKOUTS

1.1 Morning Wake 'N' Shake

Kick start your day with a 15 minute high energy blast as soon as you wake up. Morning exercise boosts your metabolism, helping you to burn more calories during the day. It helps stabilise your cortisol levels, reducing stress and improving your focus and concentration throughout the day. Get your morning workout in and set the tone for a positive day ahead.

FOCUS OF THE DAY

Focus on Fat Loss NOT Weight Loss!

A Healthy Balanced Diet is essential for effective FAT LOSS to:

- ✓ Keep Lean Muscle
- ✓ Only Lose Body Fat

Ultimate Balanced Lifestyle

SIGNS THAT YOU ARE WINNING

NOT HUNGRY ALL THE TIME

Increasing protein and reducing unnecessary carbohydrates and fats sends signals to the brain to say that you are satisfied.

IMPROVED SENSE OF WELLBEING

As your new healthier habits become part of your daily routine, you will start to feel so much better in yourself, with far more energy and increased focus and clarity. This change doesn't happen overnight and can take time, so hang in there, be patient and you will reap the reward for your hard work and dedication.

MEASUREMENTS CHANGE AND CLOTHES FIT BETTER

As you burn body fat, even if the number on the scales doesn't change, your body shape will be. You will be dropping inches off your body and those clothes that felt tight before will begin to fit nicely again! This is why we highly recommend you take measurements and photos throughout your journey, to track your non-scale victories and see how your body composition is changing.

IMPROVED MUSCLE TONE

As you burn body fat and build lean muscle through good nutrition and exercise, you will start to see big improvements in you muscle tone.

CHRONIC PAIN IMPROVES

Reducing fat levels will improve or help to prevent chronic pain in areas such as your back, hips knees and ankles.

TOILET HABITS MAY CHANGE

Increased levels of protein can lead to constipation, whereas increased fibre can improve bowl movements. You want a good balance of the two in your daily diet.

REDUCED RISK OF HEALTH PROBLEMS

As your nutritional habits improve, your blood pressure, sugar levels and cholesterol will reduce, which will reduce your risk of cardiovascular disease, heart attacks or strokes.

YOU SNORE LESS

As your nutrition improves and you hydrate your body better, it will improve your airways and reduce snoring

YOUR MOOD IMPROVES

Reducing your consumption of sugary and processed foods will stabilise your blood sugar levels and reduce mood swings.

THE IMAGES ON THE PREVIOUS PAGE REALLY HIGHLIGHT WHY IT IS SO IMPORTANT TO FOCUS ON THE NON-SCALE VICTORIES AND NOT GET CAUGHT UP WITH THE NUMBER ON THE SCALES!

3.2 Snack of the Day: Cottage Cheese Protein Pancakes

COTTAGE CHEESE PROTEIN PANCAKES

INGREDIENTS

- 1 heaped cup (250g) cottage cheese
- 3 eggs
- 1 tsp of vanilla extract
- 1 tbsp of coconut sugar
- 3 heaped tbsp flour (regular or gluten-free)

INSTRUCTIONS

Place cottage cheese into a bowl, add egg yolks (keep the whites separate) & crush everything with a fork. Add in the flour, & mix thoroughly. Whisk the egg whites into a stiff foam & add to cheese mixture, gently combine the ingredients.

Heat a dry, non-stick pan and fry the pancakes (about 2 tbsp of batter per pancake) in batches, for about 3 mins, until the bottom is slightly browned. Turn & cook for another 2 mins. Suggested serving: Greek yogurt, honey, & berries.
